GLIMMER DINNER

A night under the stars

A man with dark hair and a beard is shown in profile, facing right. He is wearing a light-colored shirt and a dark bow tie. The background is a solid, textured blue. The lighting is soft, highlighting the contours of his face and the texture of the background.

SUGGESTION SQUARE

**ON TOP A SURFACE OF
WHITE NATURAL GLIMMERPUTZ**

we applied **SETA METALLIC**
in the colors of **GOLD** and **SILVER**
brushing it on top a "stencil"
that reproduces this "greek motif".

The surface was then completed with
one skim layer of **NATURAL BEE WAX**.

The beautiful stone effect of **GLIMMERPUTZ** is
perfect to create
ancient classic atmospheres.

BERICALCE

The De Toni family produces grassello since 1924.

Ours, is a completely Italian family story.

In these years we learned all secrets of this extraordinary material and we can certainly say that to obtain a pure and excellent product there is no possible short cut:
only hard work, precision and time...
this is our way of working.

Bericalce's products come from the Venetian stucco tradition and the Veneto's experience, but they are under continuous study and improvement.

Our lime contains all the know-how and innovation necessary to offer high quality products suitable for modern life and surrounding needs.

La famiglia De Toni produce grassello di calce dal 1924.

La nostra è una storia tutta italiana.

Nel corso degli anni abbiamo imparato tutti i segreti di questa materia eccezionale e possiamo affermare che per ottenere un prodotto puro ed eccellente non ci sono scorciatoie possibili: servono lavoro, rigore e tempo.

Noi lavoriamo così.

I prodotti Bericalce affondano le radici nella tradizione degli stucchi veneziani e dell'artigianato veneto ma sono continuamente oggetto di studio e miglioramenti.

La nostra calce contiene tutta l'esperienza e tutta l'innovazione indispensabili per offrire prodotti qualitativamente superiori ed adatti alle attuali esigenze applicative, abitative ed ambientali.
