METALLIC SANDS

Un decorativo pronto all'uso, a base di sabbie e cariche perlescenti ad effetto metallico.

Non ci sono parole per descrivere la bellezza e l'unicità delle tinte Metallic Sands, perché è la loro natura intrinseca a renderle assolutamente affascinanti e fuori dal comune.

Infatti non sono ottenute attraverso miscele di coloranti, sono le sabbie e le cariche perlescenti ad essere naturalmente colorate. Questa caratteristica conferisce alle tinte Metallic Sands delle nuances incredibilmente uniche.

A "ready to use" decorative, composed by sands and pearlescent fillers, with a metallic effect.

There are no words to describe the beauty and the uniqueness of our "Metallic Sands", since there are absolutely fascinating and unusual due to their intrinsic nature.

In fact, they are not obtained through dye mixtures, but through natural colored pearlescent fillers and sands.

This feature gives an incredible and unique nuances to the "Metallic Sands" tints.
