TEXT

A glamorous tale

A perfect woman, a perfect make up, a perfect floor.

A high-angle, close-up photograph of a woman sitting on a white, polished marble floor. She is wearing a black strapless top and has her legs crossed at the ankles. Her hands are positioned in front of her, holding a small, dark red, textured object. Her toenails are painted a vibrant red. The floor has a subtle, natural marble pattern. The lighting is soft and even, highlighting the smooth texture of her skin and the glossy finish of the floor.

*like your favorite lacquer,
Marmorino Floor
reflects your essence
and lifestyle.*

UN RACCONTO GLAMOUR

Come il tuo smalto preferito, Marmorino Floor riflette la tua essenza e il tuo stile di vita. Devo essere perfetta.

DESIDERIO SOTTO LE LUCI DELLA SALA DA BALLO

Lui conduce, lei segue in una continua sfida.

IL MIO PAVIMENTO È LA PISTA GIUSTA

"Sai, vedere le ruote che si specchiano sul pavimento; wow ... è una favola!"

MALGRADO TUTTO AMO IL MIO CAGNOLINO

Calma, è champagne. "Ho sempre desiderato un pavimento dello stesso colore del mio Friedl"

ROBA GIUSTA SOLO PER NEGOZI GIUSTI

Marmorino Floor ricopre qualunque tipo di pavimento.

ABOUT US su di noi

Marmorino Floor has been studied to give your floor shades and nuances of incredible elegance, characteristics reserved, up to now, only to walls. Marmorino Floor is a product of the Bericalce's **Luxury & LIME Collection**, where you'll find all our most prestigious decorating materials.

The De Toni family produces Grassello since 1924. Ours, is a completely Italian family story. In these years we learned all secrets of this extraordinary material and we can certainly say that to obtain a pure and excellent product there is no possible short cut: only hard work, precision and time... this is our way of working.

Bericalce's products come from the Venetian stucco tradition and the Veneto's experience, but they are under continuous study and improvement. Our lime contains all the know-how and innovation necessary to offer high quality products suitable for modern life and surrounding needs.

Marmorino Floor è stato studiato per conferire al pavimento trame e nuances di incredibile raffinatezza, caratteristiche sino ad ora riservate solo alle pareti. Marmorino Floor è un prodotto della **Collezione Luxury & LIME** di Bericalce, dove trovate tutti i nostri materiali decorativi più prestigiosi.

La famiglia De Toni produce grassello di calce dal 1924. La nostra è una storia tutta italiana. Nel corso degli anni abbiamo imparato tutti i segreti di questa materia eccezionale e possiamo affermare che per ottenere un prodotto puro ed eccellente non ci sono scorciatoie possibili: servono lavoro, rigore e tempo. Noi lavoriamo così.

I prodotti Bericalce affondano le radici nella tradizione degli stucchi veneziani e dell'artigianato veneto ma sono continuamente oggetto di studio e miglioramenti. La nostra calce contiene tutta l'esperienza e tutta l'innovazione indispensabili per offrire prodotti qualitativamente superiori ed adatti alle attuali esigenze applicative, abitative ed ambientali.

Products for MARMORINO FLOOR CYCLE and BETON STYLE

HARD GRIP GRANULAR

Granular primer with high adhesiveness. thanks to its Silane Technology it adheres to any types of surfaces such as tiles, glazed ceramic, plastic, marble, iron.

SOLID GRIP

Ready-to-use paste primer specifically designed for the construction of layers of high hardness. It is applied with a trowel in 2 coats, reinforced with 90 g/m² glass mesh.

HARD MIX FLOOR

Ready-to-use special terpolymer resin specifically designed for the dilution of the products Intonachino Floor and Marmorino Floor.

PURE GLASS STANDARD / TOP

Two-component casting coating with an average thickness, which features a high level of transparency. The difference between the two versions, Standard and Top, is the level of yellowing, lower in the latter.

PURE VARNISH BICO MATT 05 / SATIN 30

Water-based polyurethane two-component matt or satin varnish with an excellent transparency, ideal as a protective finishing on indoor floors exposed to high degrees of humidity.

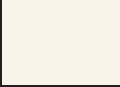

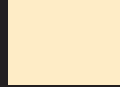

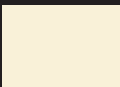

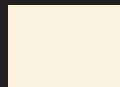

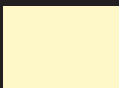

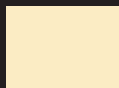

SEAL VARNISH BICO MATT 05 / SATIN 30

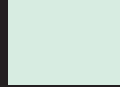

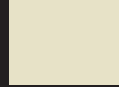

Solvent-based acrylic two-component matt or satin varnish, excellent as protective finishing on indoor surfaces exposed to extremely high degrees of humidity.
